* 8 or 9 leaf spring. Weights shown are for 8 leaf.

Options:

- No-hop axle seats
- Square axle mounting
- Various spring configurations
- Stepped seats

Features:

- Robust and dependable components provide uncompromised performance and endurance.
- The 21B literally floats on rubber, with full rubber bushings in all pivoted joints. Unique bush profile transfers maximum torque without metal to metal contact.
- Fully cast construction ensures maximum strength with longer, maintenance-free life.
- Superior bush technology utilises steel inserts to extend life, preventing bush collapse.
- Comprehensive support throughout Australia
